Fund Description and Investment Objectives

The Palisade Select Fund ("Select Fund") is the successor fund to, and continues the growth investment mandate of, the Palisade Capital Fund and Palisade Capital Limited Partnership, which were both established in May 1998. The Select Fund was established in June 2016 as an RRSP eligible mutual fund trust under the laws of the Province of Alberta. The Select Fund is an actively managed, open-end, long only fund. Its primary investment objective is to build the capital of the fund while providing diversified exposure to secular growth opportunities. Its focus is generating long-term absolute returns while actively managing risk. The Select Fund invests in a portfolio of growth-oriented entities, unrestricted as to market capitalization or sector, with primary focus on renewable energy, energy technology, crude oil and natural gas, and diversified secular growth. To the extent that it is invested in the renewable energy and energy technology sectors, ESG (Environmental, Social, and Governance) fund flow strength may provide a constructive framework for long-term investment return potential. The Select Fund does not employ the use of leverage. **The Select Fund is intended for investors who: (1) are seeking long-term capital growth; (2) are looking to invest for the medium to long-term; (3) are looking to benefit from the growth potential of companies involved in secular growth sectors; and (4) have a medium to high tolerance for risk.**
